INTRODUCTION

The Bin Ham Group is considered one of the prominent economic brands in the United Arab Emirates because this group enjoys clear economic strength in many different fields for many of its companies and activities, which have become one of the great landmarks in building the national economy.. The group has had the honor of contributing to the renaissance. Which the Emirate of Abu Dhabi in particular and the United Arab Emirates in general witnessed and is witnessing, and it was able to take the lead in many of the various economic activities that the country witnessed during the previous two decades of the young state's life, as the group relied on study, organization, and precision in work and selecting those with experience and competence to manage the work of the various departments. Its companies were a clear and easy factor in this group assuming its position in the world of the national economy in the various fields it practices. In addition to applying modern technology in all its projects, the "Bin Ham Group" includes dozens of companies that operate in various economic sectors, the most important of which are: petroleum drilling operations, drilling Water wells, general contracting, engineering consulting, general trade, publishing and media, education, financial services, travel, real estate investment, hotels, and, in the recent period, it is moving with steady steps towards globalization by directing large foreign investments in some Arab and foreign countries according to well-studied and ambitious plans. The Board of Directors of the "Bin Ham Group" is chaired by Sheikh Muslim Salem Bin Ham, who is one of the leading businessmen in the UAE. He has a pioneering role in establishing various investment projects. He is also one of the national figures who have made clear marks in the field of public work.

مجموعة بن حسم Bin Ham Group

The establishment of the "Bin Ham Group" came as a true embodiment of our aspirations to support the implementation of the applied application established by the late leader and founder Sheikh Zayed bin Sultan Al Nahyan, may God have mercy on him, after God granted him success and with him his fellow members of the rulers of the Emirates in achieving the dream of the union, which was the starting point. A strong state begins based on the principles of science, tolerance, and openness to humanity. Immediately upon its establishment... "Bin Ham Group" was keen to work with the state to lay the foundations of the basic infrastructure necessary to launch a cultural renaissance, as it would need most of the group's activities in the winter, winter and contracting, and the "Bin Ham Agricultural" and "Bin Ham Contracting" companies will play their role. The distinguished urban and agricultural renaissance witnessed by the private city of Al Ain and the general emirate of Abu Dhabi during that stage of the country's history. Since that time, and with the grace of God, we have recorded many achievements on various days, whether economic or social, which primarily led to the prosperity of society and the country, and we have many new branches internally and externally. Therefore, we had the choice of this printed work to be a witness to the achievements of our group and to be recorded among its pages. Successes began to appear, but after a long period for everyone to benefit from it. We also hope from God Almighty that we will succeed in registering our great strength in national service in the service of our economic society and our authentic people.

We, the Bin Ham Group, take pride in being an Emirati group that launched from the land of opportunities and dreams, drawing inspiration for our plans and strategies from the ongoing journey of success and excellence experienced by the UAE. At Bin Ham Group, we strive to deliver our services relying on the latest available technologies and a team of experts with global experience in the fields of finance and business, both in technical and managerial aspects. Through the group of companies under our umbrella, we provide a range of innovative solutions. Our group continues to grow both locally and globally through numerous development projects that we are executing according to the latest international standards. We enter a new chapter with new ambitions and a fresh vision centered on innovation, future foresight, human investment, and fostering an environment that supports talents and innovators within our groups. We believe that people are the foundation of any success. We have launched the new version of our website to be the window through which the world views us and the link between us and our partners. We have worked hard to ensure that the site is innovative and distinctive, using the latest technologies in its design, and providing many online links that enable users to browse the site with ease and access the information they need.

With the development of its real estate investments inside and outside the Emirates, the Bin Ham Group established the "Bin Ham Real Estate" Company in 2007, in order to succeed in achieving real estate knowledge, and specializes in managing the administrative and commercial units affiliated with it in Al Ain, Abu Dhabi, Dubai and Sharjah. It succeeded in the latest scientific knowledge in it in order to achieve The best economic return from it, especially in the competition of intense competition in the field of real estate investment and the entry of a new record in the work of real estate developers. Therefore, it chose a strategy followed by "Bin Ham Group" in the field of real estate investment based on several principles, the most important of which is: harmonizing the requirements of successful investment on the one hand and being able to achieve development goals and objectives on the other hand, as the group for this investment is focused on providing housing units and being able to On the other hand, therefore, one of the solutions that the group deems feasible to confront the problem of rising housing rents, and the economic return extends to achieving the best benefit from the large real estate boom that the country is witnessing, and benefits from the distant group.

About City project

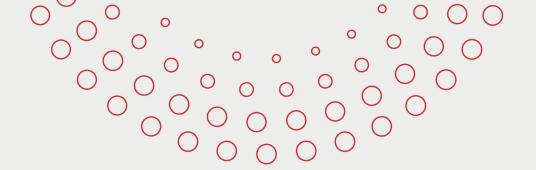

Since its establishment in 1974, Bin Ham Agricultural Company implemented several mega-projects in Abu Dhabi, and had a pioneer role in agricultural renaissance in Al Ain and Abu Dhabi. It contributed significantly in expanding the green landscape during the early history of the UAE, as well as the creation of a number of prominent parks through many forestation projects. Projects implemented by the company includes: Hili Fun City, Ain Al Faydha resort, Falaj Hazza garden. The company also proved its strong presence in other projects related to the development process such as the implementation of pumping stations and water networks as well as electrical, mechanical, civil and waste water purification plants. It also co structed a number of important civil projectsv such as:

roads, waste water treatment station in Al Faqa>a, and roads lighting in Twayyah and Um Ghafa. The company is currently implementing a number of large projects including the development of the residential area of Ramlat Al Raei in Al Ain with a cost of AED 113 Million, as well as replacement and maintenance projects of some sanitation stations for Abu Dhabi Sewage System Company, with an investment of AED 63 Million. The company is currently investing 115 million dirhams to extend the water lines of houses in the Al Ain, in addition to sewage networks project in Al Ain Al Fayda at a cost of 85 million dirhams. Bin Ham Agricultural Company, which has practical experience accumulated over more than three decades, is employing a number of highly experienced engineers and technicians, and it possess a huge fleet of the latest equipment and machinery, which is a key factor for the continuation of the company in the march of success and distinctive future, as one of the biggest companies specialized in this field in Abu Dhabi.

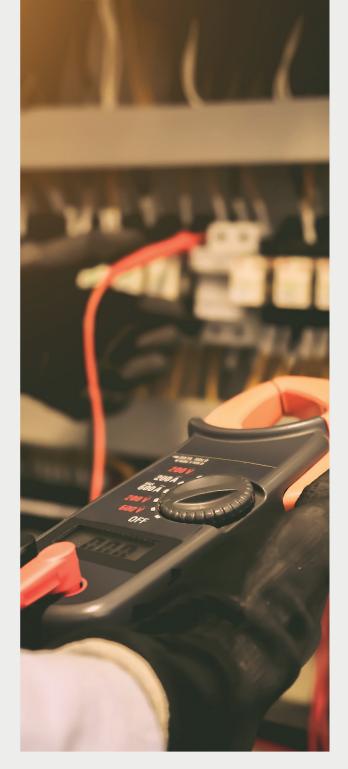

Established in 1988 by Sheikh Muslim Salem bin Ham Al Ameri and Mr. Victor Dorsey as an electrical and mechanical industrial company, Bin Ham Electrical and Mechanical Company executed complex electrical and mechanical projects such as the renovation of water and power stations, operational energy, and station transportation throughout the United Arab Emirates. Over time, the company expanded by establishing the following departments and currently employs more than 2000 qualified employees to meet various projects in the corresponding fields: Infrastructure and civil division, Electricity, mechanical, and devices department, Gardens coordination department and Commerce department.

Bin Ham Electrical and Mechanical Company is currently classified as a "first" or "second" grade contractor in the following fields:

Main roads.

Sewage treatment plants.

Main and sub-main sewage networks.

Main irrigation networks.

Electrical, mechanical, and devices works.

Gardens coordination.

The financial profit was not the goal that the group sought when it opened private schools, but rather the sincere desire to develop education by creating new and distinguished educational channels for students, providing significant financial and material contributions to other schools, and implementing projects that contribute to raising the level of the educational process in the country, considering that education is the primary pillar in the progress and advancement of society. These schools operate according to the latest educational systems and curricula, and provide all educational, cultural, and sports activities, The school provides facilities and resources that help polish students' skills and develop their abilities, such as educational laboratories and computer labs, school trips and modern teaching aids. It also offers free lessons for students, a resident doctor to provide primary healthcare for students, qualified staff members, and a fleet of modern buses that provide a safe and comfortable means of transportation for students. The school also implements integrated programs to assist students with special needs.

The Bin Ham Educational Group includes several schools, such as:

Dar Al Uloum Private School in Baniyas

Dar Al Uloom Private School was established in BaniYas in the city of Abu Dhabi. Dar Al Uloom Private School continuously strives to improve the quality of education it provides by adopting progressive policies. The school has expanded to include all stages of education, from kindergarten to twelfth grade. The school follows the curriculum of the Ministry of Education in the United Arab Emirates, thereby committing to implementing the principles of national identity in education and preparing a generation that is loyal to their country

United Private School- BaniYas

The United Private School- Branch 1 has been established in 2010. We have a well-maintained campus and facilities which create a rich learning environment, as the school was designed to motivate and encourage students to learn. All our goals, values and polices have been articulated to help the school apply the best practices that will enable us to achieve its vision and accomplish its mission. We work to preserve the culture and traditions of the UAE, while at the same time we seek to develop an educational environment with the latest technologies and teaching methods, for the best of our children, the UAE and the whole world.

www.unitedschoolbaniyas.ae

United Private Nursery

The nursery relies on a global British curriculum (EYFS) that covers all stages of child development in an easy and enjoyable way. The nursery accepts children from 45 days old to 4 years old and works on nurturing a child armed with knowledge and understanding, while providing a safe and healthy environment. It also equips them with educational skills and meaningful activities, and offers a daily program for all age groups (teaching Arabic and English languages, Islamic culture while preserving heritage). It includes outdoor and indoor play areas and safe flooring for children's play.

Printing and publishing

It is one of the largest printing and publishing companies and has the best technologically advanced printers in the region. The company focuses on investing in the latest technology and equipment. It has become well known in the region's markets for its work. Thanks to its ability to provide innovative solutions and services, the company has continued its success, achieving penetration into regional and global markets.

The launch of the Shumukh Media Foundation in early 2007 came as an embodiment of the Bin Ham Group's interest in preserving the heritage of the UAE, and its complete conviction of the paramount importance of protecting the cultural and social heritage that constitutes the identity of this promising country in this large, multicultural world. To achieve these ambitious goals, the Shumouh Media Foundation issued "Al-Qafila" magazine as a monthly magazine that serves these distinct aspects of heritage. The first issue of it was published in February 2007 and achieved great successes, which confirms the acceptance of large segments of readers for such publications. Shumukh Media is also one of the leading companies in the field of issuing, producing, printing, and marketing books and magazines. The company owns a large stock of books. Shumukh Foundation also plans to organize conferences, exhibitions, and advertising production in this field, as well as studying the establishment of a specialized television channel that will serve the UAE community. Among these distinguished publications is the book "Al Maktoum's Journey of Giving", which chronicles the biography of the late Sheikh Rashid bin Saeed Al Maktoum, the book "My Journey with Zayed" by Sheikh Salem Muslim bin Ham, which deals with important events in the history of the UAE before and after the union, and the book "Zayed is a Covenant Document". "Waad" for the Sheikha Latifa bint Mohammed Award and the book "Zayed in Al Ain... The Miracle of the Desert Conqueror," which deals with the stages of political, economic and cultural transformation of the city of Al Ain.

Shumukh Foundation for Studies and Research

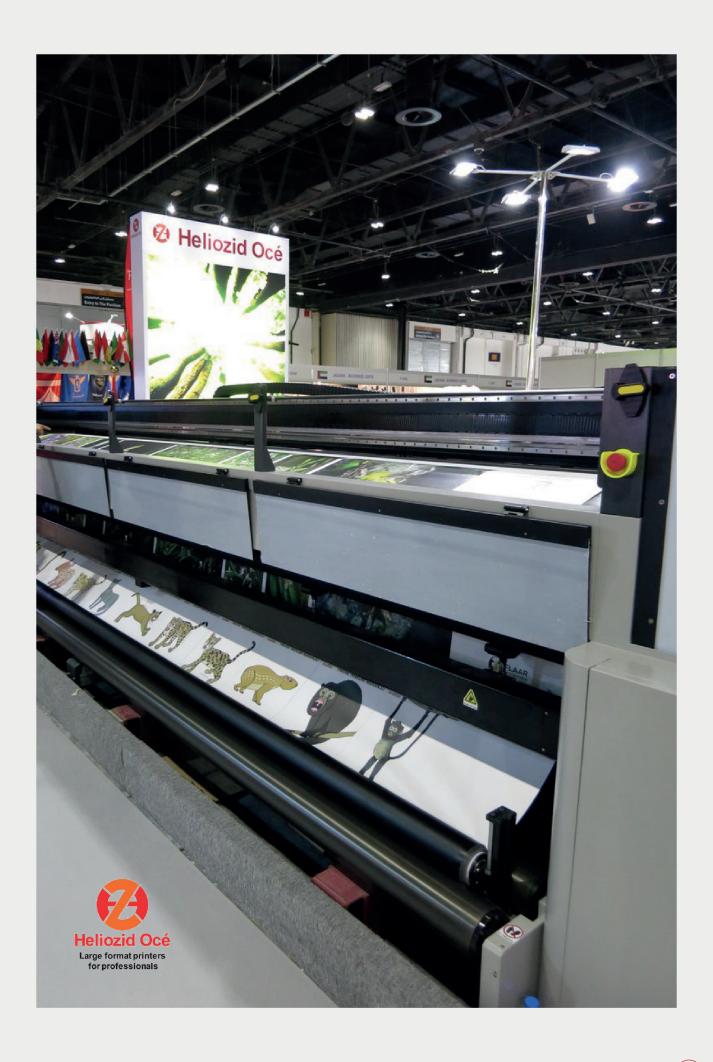

Helioside Océ Photocopying Company

Founded in 1967 as a joint venture of leading IT solutions, Océ Technologies B.V. Netherlands and Heliozid from Lebanon. Océ is considered one of the leading companies in the market in Europe and America. Today, Hollyside is one of the leading companies that focuses on organizing its core activities around distribution, sales and technical support of Océ printing and copying for all offices in the market. The company's strength lies in focusing its efforts aimed at providing solutions for printing and copying engineering, commercial and office marketing activities, while at the same time strengthening the brand name in the region.

خدمة المجتمع Society Service

www.binhamgroup.com

Society Service

Bin Ham Group was keen to extend links and collaboration with alleducational, cultural and society institutions in order to create a nongovernmental channel to support the socio-economic development process as well as to stimulate entrepreneurship and establish the concept of charity work in the community, following the example of the good approach of the late Sheikh Zayed bin Sultan Al Nahyan, may God rest his soul, which linea proven track record in the goodness and devoted feelings of goodness within each citizen.

Education Sector Support

Bin Ham Group establishment of a number of private schools contributes to the efforts that aims to develop education by creating new channels for better education, as well as to provide financial contributions for other schools and to raise the level of the educational process in the state, considering that the education is the first pillar in the progress of society.

Mass weddings

There is no doubt that the interaction of the group with problems and the concerns of the local community is the duty of all citizens, especially those who have the capacity to do so. Against this background Bin Ham undertake the task of establishing mass wedding initiatives in different places in the state. This initiative embodies the keenness of His Highness Sheikh Khalifa bin Zayed head of state, may God protect him, to offer a good life for the youth by facilitating marriage for them, away from the physical pressures and large social implications of excessive spending and manifestations of extravagance that usually accompany weddings.

Charity Works within UAE

our prominent charity works includes Bin Ham Holy Quran Teaching Center, Masjud Talha bin Yahya in New Al Markhaniyah area in Al Ain, MAsjd Sheikh Salem Bin Ham in the region of Al Wagan, Masjid Bin Ham in AL Yahar and Masjid Bin Ham in the Mowaji.

Charity work Outside the UAE

The group extended its charity works also outside the state, where it has established several charitable and development projects in some Arab and Islamic countries, such as mosques, schools and Islamic institutes and projects that provide clean drinking water to the population in some areas that lack it, as well as digging water wells and building reservoirs for freshwater. It also built houses for overseas students in some countries. Charitable projects of the group spreading in several countries, in Yemen for example the group built Salem Bin Ham mosque in Thamood in Hadramout, an Institute in Elziml area province of Marib, Ben Amer Mosque in the province of Al Bidaa, Salem Bin Ham secondary School in Tarbh in Hadramout, and Bin Ham center for Islamic studies in Alroihh region.

Community Contributions

"Together We Are Good" Program:

The Bin Ham Group has presented numerous initiatives to support the efforts made by the state leadership and its institutions in combating the spread of the coronavirus pandemic, including the contribution of City Seasons Hotels Group in the "Together We Are Good" program with a total of 3600 hotel rooms, providing all necessary services free of charge to medical sector workers.

Benham Group has provided support worth AED 10 million to a number of resident families with limited income, in the fields of education, health, and housing, in order to alleviate the burden on these families and provide them with the essentials for a decent living.

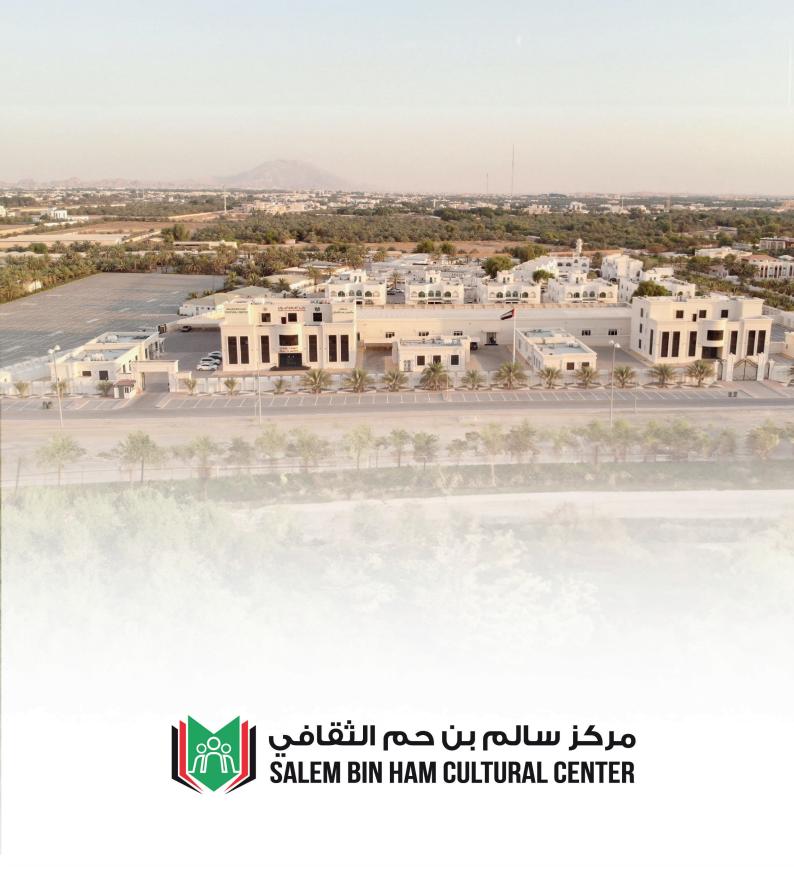

Onak Ya Watan Volunteer Team

The Onak Ya Watan Volunteer Team was established in implementation of the directives of the wise leadership to encourage volunteer work, which has become a basic pillar in the UAE, in order to consolidate the values of love for the homeland and defend it, confirm loyalty to the wise leadership, enhance belonging, highlight national achievements, stimulate volunteer work, and serve the community through volunteering as a sublime message. The team attracts individuals who meet the standards of ability to communicate, exchange opinions, participate in humanitarian and charitable issues, and enhance interdependence and solidarity between different members of society. The name "Onak Ya Watan Volunteer" was chosen to provide the assistance it can in loyalty to the homeland and its wise leadership, as the homeland is in dire need of the creative energies of its people to contribute to the development process and highlight the civilized community volunteer role, and volunteer work is one of the manifestations of charitable and humanitarian activity practiced by the state. Internally and externally, in light of the UAE government's keenness, interest and unlimited support for volunteer work and its institutions, and for the efforts of volunteer public benefit associations and their programmes.

cultural and knowledge beacon in the city of Al Ain to complement the march of the cultural renaissance that the UAE is experiencing, which is rich and rich in various arts, as the UAE's renaissance is not limited to the physical aspect only, as it is accompanied by a parallel renaissance represented in the construction of human culture and intellect. The center is a qualitative addition to the city of Al Ain with its ancient heritage and represents a scientific and knowledge edifice that consolidates the country's position as a civilized destination and enhances its efforts to enrich the cultural scene and support the creative movement in the region and the world, which contributes to accelerating the pace of intellectual achievements. The center includes a number of halls equipped with the latest audio and video equipment and lighting equipment to host private and public conferences and celebrations, in addition to a special hall for the collections of the late Sheikh Salem bin Ham, a library that includes selections of the most prominent Arab and international historical, heritage and cultural publications, and a number of halls, including Sheikh Salem bin Ham Hall for seminars and lectures and Al Ain Hall, which can accommodate more than 2,500 people to organize conferences, exhibitions, parties and cultural and social activities in their various fields in addition to an outdoor square for national parties that can accommodate more than 6,000 people. The center contributes to strengthening the Emirati heritage building, documenting the stages of contemporary Emirati history and its social memory, and participating in the elevation of the edifices of culture that our beloved country is witnessing today.
